**“To maintain our position as a world class performing company
delivering a competitive advantage to our customers.”**

Overview

Cablesan specialises in the manufacture of cable assemblies for the defence, aerospace, marine, industrial, and commercial sectors.

Our proven expertise in cable assembly manufacture has enabled us to become suppliers to many leading companies across these industries.

Our products across all market sectors

- Military Aerospace
- Military Vehicles
- UAV's
- Medical
- EVTOL
- Communications
- Industrial
- Renewables
- Security
- Powertrains
- Test Equipment
- MRO
- Automotive

Product Groups

High Performance Sealed Harnesses

Box Build and Control Panels

Aerospace Open Wiring Harnesses

Industrial Harness Assemblies

Capabilities

- Sealed Cable Assemblies
- Aerospace Open Wiring Harnesses
- Cable Overmould Solutions
- Fibre Optical Assemblies
- RF Cables
- Electro-Mechanical Assembly
- Laser Wire Marking
- Aerospace and Military Test Benches
- Engineering Support
- MRO Support
- Automotive Cable Assemblies
- Marine Cable Assemblies
- Machine Over Braiding Cables
- Flexi Circuit Solutions
- Solder Worn Cables
- Ribbon Cables

Customer Focus

Project Management

To ensure our reaction times, stock accuracy, operational efficiency and ability to provide our customers with 'real time' job reporting, Cablescan operate the Factory master ERP system. This system controls all aspects of the business through a number of touch screens and barcode readers in each department providing a complete overview and performance levels of each business KPI.

Cost Reduction

Information such as production efficiency, rework time and the value of any scrapped material is communicated weekly and displayed on a team board to drive suggestions and process improvement and ultimately reduce costs.

Certifications & Approvals

Cablescon holds the following certifications and approvals:

- BS EN ISO9001:2015
- AS9100 Rev D
- IPC/WHMA-A-620 (CIT)
- IPC J-STD-001 (CIT)
- Cyber Essentials Plus

Cablescon is currently in the process of gaining the following approvals:

- ISO14001 – Expected to be complete by 2023
- VG96927-2 – Expected to be complete by end of Q1 2023

Quality & Testing

Cablescon are equipped with three MK Automeg test systems and three DITMCO test systems to compliment any manual testing requirements.

This enables electrical assemblies and panels to be tested and certified to the customer's exact requirements. These tests include the following, with full details available on request:

- DC insulation resistance to 1500V
- AC HIPOT/voltage proofing up to 1000V
- Point-to-point continuity
- HV flash
- Voltage drop
- Resistance

Mission Statement

“To maintain our position as a world class performing company delivering a competitive advantage to our customers.”

To achieve this we continually:-

- Increase value of our blue chip customer portfolio
- Increase our market share and position
- Maintain and increase accreditations
- Develop our personnel and our facilities
- Develop our customer and supplier relationships
